Raiderettes Beat Brookville 27-4

The Appomattox Raiderettes opened the 1974 softball season by rocking the Brookville girls 27-4 last Monday in a Seminole District softball game at Brookville.

The Raiderettes banged out 23 hits and took advantage of 22 errors by Brookville in route to the victory

Mary Louise McCraw and Mary Jane Smith led the Raiderettes with four hits each. C. Smith and T. Smith each had two hits and D. Paulette, the winning pitcher, S. Moore and N. Chambers each had two hits,

W. Lee and T. Anderson led Brookville with two hits each as the Brookville team got only six hits altogether.

Raiderettes Edge J.-Forest

The Appomattox Raiderettes came up with four runs in the seventh inning to wipe out a 4-1 Jefferson Forest lead for a 5-4 win in a Seminole District softball game played last Tuesday at Appomattox. The Raiderettes are now 2-0 and JF is 1-1.

Jefferson-Forest led 4-0 going into the sixth inning and the Raiderettes scored one time to make it 4-1. In the bottom of the seventh, Appomattox trailed 4-3 with two out, but a walk, two hits and an all important error by Jefferson Forest allowed the winning run to be scored by Sue Moore.

Mary McCraw and Rita Inge led the 12 hit Raiderette attack with three hits each. Turner and Price paced J.F. with three hits each in their 14 hit attack.

Jefferson Forest had base runners in the last four innings, but a good defense by Appomattox held them scoreless.

Cancer Can Be Cured

There is hope in the cancer picture. CANCER ACTUALLY IS ONE OF THE MOST CURABLE OF THE MAJOR DISEASES. However, unreasonable fear keeps many people from seeking help until it is too late while others do not realize the progress which has been made against this disease.

To emphasize the hopeful side of cancer, the American Cancer Society's Virginia Division has selected Brenda Gore of Woodbridge as the first Miss Hope of Virginia. Miss Gore, a junior nursing student at the Medical College of Virginia in Richmond, is serving as the Society's spokesman, carrying a message of hope in the fight against cancer as she travels around the state.

In speaking to various groups, Miss Gore stresses that early detection of cancer and prompt treatment are the key to curability. She cites statistics which show that today one in three patients is being saved, while just two decades ago it was one in four. And, she emphasizes it could be one in two, if the disease is detected early and treated promptly.

Knowing cancer's warning signals and seeing a physician promptly when a signal lasts more than two weeks is important. As the new Miss Hope points out. She also notes that there are a number of things individuals can do to protect themselves against cancer- tests like the simple Pap test and breast self-examination for women: the procto for everyone, especially those over 40; no cigarette smoking and caution in the sum for all ages; and an annualhealth checkup.

As a nurse, Miss Gore can speak knowledgeably about the great advances made in surgery, radiotherapy and the use of drugs in treating several types of cancer. She becomes especially enthusiastic when telling prople that 200 leukemic children being treated with new drug combinations have survived five years and several as long as 15 to 18 years.

Miss Gore is especially interested in the medical-surgical field of nursing and as a student nurse at the Medical College has worked a great deal with cancer patients. Her interest in nursing began as a high school student when she served as a candy-striper at Prince William Hospital. She also served as a nurse's assistant at Potomac Hospital during the summers. Then came a long period of hospital visits when her nephew, born with a heart defect, underwent sucessful open heart surgery. From then on nursing became her goal.

As Miss Hope of Virginia, Miss Gore received a $400 scholarship contributed by the
